/1 Impact of U.S. Tax Reform as applied to businesses subject to rate-regulation. This regulatory liability will be amortized over varying terms that approximate the expected reversal of the underlying deferred tax assets and liabilities.

/2 Established pursuant to FERC order under Docket No. RP94-43-016 dated February 13, 1998 approving ANR Pipeline Company's Stipulation and Agreement of Settlement in Docket No. RP94-43-000 dated October 17, 1997.

/3 Order on Compliance Filing, Clarification and Rehearing, 112 FERC ¶ 61,286 (2005).

/4 ANR Pipeline Company, Docket No. RP05-701-000 (October 21, 2005) (Unpublished Director's Letter Order).

/5 Order Approving Settlement on an Interim Basis as Modified and Denying Rehearing, 60 FERC ¶ 61,145 (1992).

Note - Fuel matrix was originally proposed in Docket No. RP-172-000 and consolidated into ANR's general rate proceeding in Docket No. 89-161-000.

/6 Per ANR Tariff GT&C, Section 6.31, Crediting of Penalty Revenues, penalties collected during the year are refunded to non-offending customers.

/7 This amount specifically relates to the net excess of certain post-retirement and post-employment benefit costs net of income tax effects accumulated prior to the purchase of ANR by TC Energy in February 2007. The associated post-retirement and post-employment plans and sponsorship of the related accounts remained with ANR's prior owner after the sale of ANR. Accordingly, the resolution of this balance will depend upon the ultimate resolution of the related plans upon their termination, and these amounts are accordingly excluded from consideration in the computation of ANR's rates.

/1 ANR's storage fields were originally production fields converted to storage fields, which still contain residual liquids (oil, condensate and retrograde condensate). Customers put in and receive pipeline quality gas, but when the gas is withdrawn it is enriched with the residual liquids.

/2 Other Gas Revenue - Gas Sale - Cashout by interconnecting pipelines are offset to Account No. 808.1.

/3 ANR Penalty Liability

/4 Marshfield Settlement - Docket No. CP11-539 states surcharge revenues can be credited to the costs ANR uses to derive system rates in its next rate case.

/5 Vectren Energy (\$45,624 per month) and Indiana Gas Company (\$22,812 per month) contracts are to recover the cost of a facility for a customer.
