[1] 18 C.F.R. Part 154 (2011).
[2] 4.16 – Statement of Rates, Statement of Surcharges ("Section 4.16").
[3] 6.15.5 – GT&C, System Cashout Mechanism ("Section 6.15.5").

Statement of the Nature, Reasons and Basis For Proposed Change

Section 6.15.5 of the GT&C of ANR's Tariff sets forth the System Cashout Mechanism. The System Cashout Mechanism provides for an annual calculation, on a system-wide basis, of a cashout surcharge (positive or negative) reflecting annual cashout activity.

Consistent with the requirements of Section 6.15.5, attached hereto in Appendix C is ANR's annual report of net cashout activity on its pipeline system. Attachment 1, Page 1, of this report reflects the calculation of the 2010 Net Cashout Activity Balance, made up of a beginning cashout balance of approximately $5.2 million, net cashout activity during calendar year 2010 of approximately $2.3 million of revenues in excess of costs, and negative surcharge reimbursements of approximately $4.0 million. After including carrying charges, the positive Net Cashout Activity balance at December 31, 2010, used to develop the surcharge in this filing, totals approximately $3.6 million of revenues in excess of costs.

Consistent with Tariff Section 6.15.5, paragraph (c), ANR has calculated a negative surcharge equal to ($0.0025) per dekatherm by dividing the positive Net Cashout Activity balance by the throughput actually experienced and reported in ANR's 2010 FERC Form No. 2. Accordingly, ANR proposes to revise the currently effective Cashout Price Negative Surcharge, as reflected in Section 4.16 of its Tariff, from a rate of ($0.0036) per dekatherm to a rate of ($0.0025) per dekatherm, effective June 1, 2011. This surcharge shall be applied to all transportation services subject to surcharges.

ANR is enclosing herewith the detailed schedules, in Appendix C, that derive the proposed Cashout Price Negative Surcharge of ($0.0025) per dekatherm.

- Attachment 1 sets forth a summary of the net cashout activity on a system-wide basis, for each of the months of January 2010 through December 2010, and in total for the twelve-month period. Deficient Quantities are shown as positive entries and Excess Quantities are shown as negative entries. Page 1 summarizes the cashout activity during this twelve-month period, and also provides the calculation of the cashout surcharge.

- Attachment 2 sets forth the calculation of carrying charges on the monthly net cashout activity in accordance with Section 154.501 of the Commission's regulations.

- Attachment 3 summarizes the spot price indices for Louisiana, Oklahoma, Canada, and the Mainline for the period January 2010 through December 2010.

- Attachment 4 includes a listing of all actual replacement gas purchases and sales, including volume and amount, by entity.

- Attachment 5 includes a detailed report of monthly net volume imbalances cashed-out (bought or sold), including applicable cashout prices, and the applicable cashout gas costs or cashout revenues, by each shipper and by each receipt area, for the period January 2010 through December 2010.

Motion to Place Tariff into Effect

ANR, pursuant to Section 154.7(a) of the Commission's regulations, respectfully moves at this time that the proposed revised Section 4.16, if approved without addition, modification, or deletion, be placed into effect on June 1, 2011. Apart from the foregoing, ANR reserves its right under Section 154.7(a) to file a motion to place the proposed revised tariff sheet into effect at the end of any suspension period ordered by the Commission.
